WEEKLY EDITORS OF ALBERTA EN- JOYED VISIT

Lethbridge Welcomed Weekly News-
paper Editors and Wives at
Annual Convention.

The Alberta Division of the Canadian Weekly Newspapers Association held their annual convention at the Marquis Hotel, Lethbridge, on Thursday and Friday of last week, and the executive committee is one of the most successful ever held.

The fine new community hotel provides splendid accommodation for gatherings of this nature, and the city is deserving of commendation for its enterprise in erecting a first-class hotel which is on a par with the Palliser or the Macdonald as regards accommodation and service. It will mean much to Lethbridge as a convention city, and the editors and their wives enjoyed their stay.

The city is a striking example of aggressive enterprise for with its fine trees and beautiful gardens, the thought impresses itself, on one's mind that man has turned the wilderness into a beauty spot, and the nearby Henderson Park and lake demonstrate what can be accomplished in tree planting and cultivation on what must have at one time been just a stretch of prairie.

On Thursday afternoon through the courtesy of the Board of Trade, the party was taken to Raymond, where the immense sugar refinery was the centre of interest. This was indeed a surprise to those who had only an impression of what the sugar industry means to Lethbridge district, for the investment of over a million dollars in a plant of this nature requires faith on the part of the promoters and also will be the prime factor in developing the growing of beets on thousands of acres in the district.

Another pleasing sight was the heavy crop which has been partly threshed, and the combines at work were an attraction to those who saw them for the first time, including Dr. Wallace, president of Alberta University who accompanied the party.

In the evening the visitors were the guests of the Lethbridge Herald Printing Co., and addresses were given by Mayor Barrowman, Dr. R. C. Wallace, Mr. Johnston and A. B. Hoag. Senator Buchanan officiating as toastmaster in a very capable manner. It was a real get-together affair and evidenced a spirit of co-operation and friendliness on the part of Lethbridge's daily newspaper towards the weekly newspapers of the province.

At Friday morning's session an address by Senator Buchanan emphasized the necessity of weekly newspapers using their influence towards the beautification of the prairie farm homes, for it would make for contented people and tend to create a greater interest in their farms, instead of regarding them as merely places to grow wheat and later, if successful, more out. He felt there was a need for propaganda along these lines, and cited the foresight of Sir Alexander Galt in setting aside a piece of land in Lethbridge (now known as Galt Gardens) in order that the city might have a beauty spot. Its example was evidenced in its far-reaching effects by the splendid trees and home surroundings throughout the City of Lethbridge.

Addresses by President Wallace of Alberta University at the convention and at the banquet created a very favorable impression, and he stated that it was his desire to secure a background of knowledge of all phases of agricultural, industrial and mining conditions in the province, for he felt that in order to serve the people the university must have this information. Referring to the work of weekly newspapers, and their importance in reflecting and influencing the life of the communities which they served, he felt it would be a good thing for the dailies to give prominence to the more important editorial expressions of the weeklies, so that city readers and the province as a whole might at least be kept in touch with districts other than their own. The convention closed on Friday

MRS. ROBERT BURNS BURIED ON SUNDAY LAST

The death occurred on Friday last of Mrs. Robert Burns, aged 25 years, and the funeral was held on Sunday, service being held at the United Church, the Rev. H. D. Bevan officiating. Deceased had been ill only a short time, and was operated on at the hospital the Monday previous. She is survived by her husband and a little son aged 4½ years. Deceased was very popular among a large circle of friends, who mourn her untimely death.

She had lived in Coleman for six years, coming here from Lachute, Que., and was the daughter of Mr. and Mrs. Lemer, of that city.

Card of Thanks

Mr. Robert Burns desires to express his appreciation of the many expressions of sympathy and kindness shown in his bereavement, and to thank all who kindly sent flowers, as follows:

Mr. and Mrs. Albert Short, Mr. and Mrs. W. J. Burns, and members of the O. B. A., Mr. and Mrs. John Van Mastron, Mr. and Mrs. Geo. Short, Mr. and Mrs. M. J. McIntyre, Mr. and Mrs. A. Foley, Mr. and Mrs. A. B. Westworth, Mr. and Mrs. B. McIntyre, Mr. and Mrs. D. S. McKinnon, Mr. and Mrs. R. F. Mitchell, Mr. and Mrs. I. Nelson, Mr. and Mrs. W. R. Godfrey, Mrs. A. E. Dodd, Mrs. W. E. Edgar, Mrs. Jas. Grewett.

Anglican Church is Making Appeal

\$40,000 Required in October to Place
Finances of Diocese of Calgary
on Good Footing.

Special efforts will be made to raise the above amount, and a campaign will be carried on in all parishes, opening with a mass service in Calgary, which will be broadcast over the radio.

Every family in Coleman belonging to the Anglican church will be asked to contribute towards this fund, a committee having been appointed to carry on this work under the chairmanship of the Rev. A. D. Currie.

Bellevue Man Pur- chases Theatres

Will Not Necessitate Change in Local
Operation of Theatre, States
Andrew Dow.

Romeo Rinaldi of Blairmore has become the owner of the Orpheum Theatre in Blairmore and the Palace Theatre in Coleman, having purchased these valuable properties from Tony Ptacek of Blairmore. For many years past Mr. Rinaldi has resided in Bellevue where he operated the Lethbridge Brewery warehouse at that point, so he is very well known in the Pass. Both these theatres have been operated for many years by Mr. Ptacek, but up to the present he has not announced his plans for the future.

Interviewed by The Journal, Mr. Dow, who operates the Palace, and who also owns the Grand Theatre in Coleman, stated that existing arrangements for the operation of both the Blairmore and Coleman theatres would continue.

Frank Graham Jr. and family left this morning by auto for a visit to Edmonton.

Afternoon, when a presentation of a silver tea set was made to H. O. McCrea, secretary of the Alberta Press Association, in recognition of his untiring efforts in behalf of the weekly newspapers.

The executive elected is as follows: President, H. B. Anslow of Campbellton, N.B., president of the C.W.N.A.

President, Fred Tushbull, Red Deer. First Vice-President, Ben A. Huckle, Initial.

Second Vice-President, F. Sleight, Camrose. Secretary-treasurer, H. G. McCrea, Hanna.

Executive Committee, Messrs. Wright of Cardston, King of Claresholm, A. Moore of Strathmore, Ralph Jessup of Nanton and H. T. Halliwell of the Coleman Journal.

Coleman is Flourishing; Its 3500 People Demand That Progress Be Made

Now 25 Years Old, Coal Town Has All Facilities of an
Up-to-Date Community; Has Important Industries in Mines and Lumber

The Town of Coleman dates its inception from the year 1903, five years after the completion of the Crow's Nest division of the Canadian Pacific Railway from Lethbridge through the Crow's Nest Pass to Cranbrook. In the intervening years it has developed from a coal mining camp into a town of approximately 3500 people, possessing waterworks, power and light service, high and public schools, and all the requisites of a progressive community.

Surveyed in 1903

In October of 1903 the townsite was surveyed, the International Coal and Coke Company, Limited, having, early in the year, taken over the townsite and adjacent coal lands. Following the survey, lots were placed on the market, and during the remainder of the year officials and workmen practically camped on the townsite. The first hotel built was known as the Coleman Hotel, and was considered in those days something to be proud of. The school district was organized in 1905, and up till that time school was held in the Church of England mission hall, Miss Nettie McIntyre being the first teacher.

Industrial and business life in those days centered around the International Coal Company's plant, for it included a tipples with a daily capacity of 2000 tons, 100 coke ovens, power house, warehouses and machine shop. The main tunnel had been driven about three-quarters of a mile, while No. 2 seam had been driven in to about 500 feet. The present workings extend for many miles.

Several years later the mine of the McGillivray Creek Coal and Coke Co., Ltd., was opened up, and this company had made rapid headway, its workings extending for several miles in a northerly direction.

Old King Coal

Coal is king here and furnishes employment to over a thousand miners, besides which there is a large number of permanent employees or company men. The Canadian Pacific Railway Co. is the heaviest purchaser of coal from these mines. Steam coal is produced, classed as bituminous, and ideal for use on the huge locomotives that thunder across the prairies and through the mountains. The present capacity of the two mines mentioned is 3000 tons per day each, and the immense amount of coal required by the great transportation company can be imagined when it is stated that, since before Christmas of 1927, the mines have worked almost without a let-up, though with the approaching grain movement there will necessarily be a slackening owing to cars being diverted for grain haulage to the head of the lakes.

Schools and Businesses

Coleman and district have two schools; Central school has an attendance of 500 and West Coleman school 130, there being a staff of 17 teachers, with Principal D. Hoyle, M.Sc., in charge. The chairman of the school board is Thos. Johnson, and his keen interest in all that pertains to school welfare contributes greatly to the efficiency of these important institutions in community life. All lines of business are represented in the retail stores, and the Bank of Commerce takes care of the financial business of the town, a handsome brick building having been opened this year. W. L. Rippon being the manager.

At the head of the town council is Mayor Burns, an occupant of the office for seven years, while six councillors representative of the business interests and the miners assist in the municipal government of Coleman.

This is also an important point in the Crow's Nest Forestry Division, being the headquarters of Forest Ranger Harry Boulton, and constant communication is maintained not only with the air station at High River, but with a number of look-out stations in the mountains, which are connected by forest telephone. By means of radio broadcasting from the airplane patrol, great advance has been made in the work of forest pro-

STAFF-CAPT. MERRITT GOES TO BRITISH COLUMBIA COMMAND

Staff-Capt. Merritt, of Calgary, was in Coleman on Monday paying his farewell visit to Captain Donnelly and Lieut. Mackenzie, local corps officers. He is being transferred to Vancouver, and will be divisional commander of the British Columbia territory of the Salvation Army. His untiring energy in this province during the past three years is recognized by Army headquarters and his friends throughout this district join in congratulating him on his promotion and wish him success in his new field of work.

LEGION MEMBERS ARE URGING ACTION ON WAR MEMORIAL

Will Ask Memorial Committee to
Take Steps Before Armistice
Day Arrives.

A general meeting of the Canadian Legion was held on Sunday afternoon when the letter, published in last week's edition of The Journal of "Coleman Vet." re the erection of a war memorial in Coleman was under discussion. The Legion members felt it was time action was taken in this matter, as since the committee of citizens with two representatives of the Legion was appointed last year no further action has been taken. There is a trust fund in the bank, and as pointed out in last week's letter, though it is not sufficiently large to erect anything expensive, yet some thing simple but lasting would suit the purpose.

It is probable that the Legion representatives will be asked to take the matter up with the memorial committee in order to secure action before Armistice Day—Robert Parry, Secretary, Coleman Branch, Canadian Legion, B.E.S.L.

COLEMAN BOYS WON TOURNEY AT BLAIRMORE

Defeat Blairmore and Pincher Creek
—Work of Ringland for
Pincher is Feature

Lethbridge Herald: Coleman won the baseball tournament here today by virtue of their double win over Pincher Creek and Blairmore.

The feature of the day was the hitting of Ringland, sterling young outfielder for Pincher Creek. In the sixth inning, with Alexander on base, he crashed the ball over the left field fence into the mountainside, the longest hit seen here this year. Incidentally he was one of the Macked Juniors who two years ago found the same spot in their games which won them the Alberta junior championship.

Blairmore opened in the morning with a 3-2 win over Hillcrest. Houghs was in rare form and kept the visitors' hits well scattered, while the locals punched theirs when needed. In the afternoon future Coleman, with an unexpectedly strong lineup, did the unexpected and turned back Pincher Creek 8-3. Coleman started out with three runs in the first inning before Hay had found himself. After that the bases were filled twice, but nice fielding by Ringland and Bell cut off seeming rallies. A nice play was a long leave to the plate by Ringland when he pulled in a long drive to the fence and cut the runner off at the plate. Gates hit a three-bagger in the fifth with two on and cinched the game for Coleman.

The last game was resultant of heavy hitting by Coleman, who again lunched their hits. Sofko was good in the pinches and had the best of Dichen and Houghs in a pitching duel.

Over 1200 people turned out for the three games and they certainly received their money's worth.

Friday and Saturday
Sept. 21-22

DEFEAT WOE,
that of Janet
Gaynor in this moment
from "Street Angel" To
know the shame of being forced
to seek men on the streets... to keep
body together, by selling her soul...
the neithmost pit for a girl of such
guileless charm... when she approaches callous
men of the roadside the coarse brutes laugh at
her they cannot believe she offers them her
spotless charms for a price... her very innocence
hinders her from playing the only trade left
open for her the trade which that innocence
loathes... Degradation and
distress could go no further
Only her marvelous spirit,
fighting blindly, could
carry her through.

Christianity's Next Task

The signing of (1), the Treaty of Versailles in which is incorporated the covenant of the League of Nations, the naval treaties at Washington, and (3), the Kellogg anti-war declaration recently at Paris, were all hailed by press, pulp and public as important milestones along the road to permanent world peace and a better understanding among the races of the earth. Special services were held in churches to mark some if not all of these events, while thousands of columns of editorial matter were printed lauding these notable efforts to put an end to racial animosities. And every word written or spoken in praise and support of these great peace movements was fully deserved.

But, the Literary Digest, the new programme for world-wide spiritual co-operation adopted by the International Missionary Council at its last meeting in Jerusalem may be considered as revolutionary in the ecclesiastical world as the above named three events are in the political world. All took to the promotion of peace, but the Jerusalem Conference, perhaps, probed deeper into the problems which agitate the world and array nation against nation, race against race, and concludes the Literary Digest, while little publicity has been given to the deliberations and conclusions of the Conference held on the Mount of Olives, no bells rung or psalms of praise offered up, yet so much was done that posterity may rank Jerusalem with Geneva, Washington and Paris in the onward march of mankind toward international amity and the ending of racial hatred.

Among the subjects discussed on the sacred mount outside the Holy City were the race problem, the rights of minorities, the protection of women and children in industry, relations between strong and weak nations, the land question, intellectual and spiritual co-operation, relations between church and state, and various other phases of world peace. Specialists on race, industry, and international relations from the minorities section of the League of Nations and the Universities of London, Harvard and Columbia, among other institutions, were present to contribute technical knowledge as these problems were attacked.

And with what result? Following lengthy and searching study of conditions as they now exist in countries all over the world, and the relation and duty of the Christian church thereto, this International Missionary Conference meeting at Jerusalem found that "the Church has not firmly and effectively set its face against race hatred, race envy, race contempt, or against racial, national and social prejudice, or against the lust for wealth and exploitation of the poor or weak."

It was evident right at the beginning of the Conference that the old attitude of superiority of the West over the East, regarding of Nordic civilization and the Christian religions as one and the same, was not acceptable. The idea of race superiority was not admitted for a moment, and the Conference indicated its belief that the basis of race prejudice is economic. In lands where races live side by side, participation by all in racial intermingling for social, cultural, and religious fellowship was declared to be the natural expression of Christianity, and was welcomed as a step toward world-wide understanding.

Who is there who deny that such belief and conclusions are in line with the teachings and spirit of the Founder of Christianity? And does there not emanate from this Conference a special message for the people of Canada, and especially for the people of Western Canada? Of late there have been unfortunate revivals of ancient campaigns by certain classes of our people against certain classes based solely on questions of race and creed. Most unfortunate of all is the fact that many of the leaders in these campaigns, which are a denial of Christ's whole life and teaching, are recognized leaders in the Christian church.

It is the fond hope and dearest ambition of many thousands of forward-looking, patriotic Canadians that this young Dominion reaching out in its new nationhood will become a power for good in the world, that its greatness will be found not alone in its wealth of natural resources, its far-reaching trade and commerce, its cultural attainments, but in those spiritual attainments and contributions to all mankind which, in the final analysis, are the true measures by which to estimate the greatness of any people or nation.

Good Job For Him

He was the slowest boy on earth, and finally he was appointed to a naturalist. He was so slow it took him an hour to feed the canary, two to stick pins through four batteries, and after taking all afternoon to change the goldfishes' water, he asked what else he could do.

"Well," said his master, "you might take the tortoise for a run!"

Forest Fire Cuts

Canada's bill for forest fire losses amounts to more than \$1.50 a week for every man, woman, and child of the population. Federal and Provincial Governments are putting forth efforts to reduce and eventually wipe out this heavy loss.

The longest railway run in from Riga to Vladivostok, 6,800 miles.

Prosperity In Central B.C.

D. D. Munro, provincial government land settlement agent, Smithers, reports that crop prospects for Central British Columbia this year are excellent. He states that since the erection and operation of the grain elevator at Prince Rupert, a number of farmers are going in for grain-growing with splendid results. He also says that the increase in mining is having a very beneficial effect, and he is enthusiastic with respect to the future prospects of that territory.

During a spell of cold weather the Aberdonians were to be seen going about with their mouths open. There was a nip in the air.

The first geological period, called the aeolic, contained no trace of life in any form.

Tourist Trade Increasing

Figures For 1928 Will No Doubt Show Gain Over Last Year

While it was estimated that American tourists spent \$200,000,000 in Canada last year, there is no doubt but that the figures for 1928 will show fresh gains, stated R. K. Odell, assistant director of the natural resources intelligence service of the department of interior, who was in Edmonton in connection with affairs of his department.

Development of the tourist trade is of extreme importance to Canada and its value is fully recognized, said Mr. Odell. In carrying on its work, the federal branch is co-operating with the provincial governments and other local bodies.

ARE YOU RUN-DOWN?

All That Is Needed Is a Tonic To Build Up the Blood.

There are many people who have been semi-invalids so long that they accept their condition as a life burden. They have endured nervousness, broken sleep and a generally run-down feeling so long that they have given up hope of again enjoying good health. In most of these cases a well chosen diet, fresh air and a tonic to build up the blood would do wonders. And as a blood-building tonic no other medicine can compare with Dr. Williams' Pink Pills. There is scarcely a spot in Canada where you will not find some formerly ailing person who has found new strength through the use of this medicine. The experience of Mrs. Thomas Alaburn, St. Malo, Quebec, is one of these. She says:—"I have the greatest reason to be thankful for what Dr. Williams' Pink Pills have done for me. I was in a very weak and run-down condition. Frequently I would faint and my legs would swell badly. It was almost impossible to do any housework. In this weak and despondent condition I began taking Dr. Williams' Pink Pills. Few boxes proved that they were helping me. I continued taking them until I had used a dozen boxes, by which time I found myself a completely restored woman, able to do my work without fatigue, a better appetite and a sense of cheerfulness, where before I had been despondent. For all this, thanks to the health-giving qualities of Dr. Williams' Pink Pills."

If you are feeling run-down, give Dr. Williams' Pink Pills a fair trial and new health will be yours. You can get the pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Important Fossil Beds

The Red Deer Valley of Alberta is exceedingly rich in fossil remains of dinosaurs and other extinct vertebrate animals, which are being slowly but surely exposed by erosion of the sides of the valley. It is the most productive collecting field in Canada and has already yielded much new and well preserved material to the museums at Ottawa, Toronto, Edmonton, and New York.

Asthma Is Torture. No one who hasn't gasped for breath in the power of asthma can realize the suffering is. Thousands do know, however, from experience how immeasurable is the relief given by that marvelous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been given to many severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Many Occurrences Of Salt. Salt, either in natural brines or in beds of rock salt, is found in every province of Canada. Commercial production, however, is confined to Ontario, Nova Scotia, and Alberta.

It Will Prevent Ulcers Throat—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

A Ferner Hope

At the grave of the departed, the old dorky parrot stood, hat in hand. Looking into the abyss, he delivered the funeral oration.

"Samuel Johnson," he said, sorrowfully, "you is gone. An' we hope you has gone where we 'specks you ain't."

Canada's Experimental Farms. The Dominion Experimental Farms system of the Department of Agriculture stretches across Canada from the Atlantic to the Pacific, and is the most comprehensive system of its kind to be found in the world.

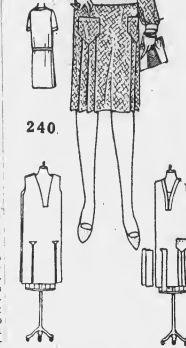

A scientist says women are going to become the ruling sex. That's the worst of these scientists! They go to sleep for so long between their discoveries, that when they awake and speak, "it's all over long ago."

Minnard's Liniment cleanses cuts, etc.

Here's How

You Can Always Keep Your Farm Buildings in Good Repair

GYPROC Advantages for Farm Buildings

Easy to use. Workable as lumber. Cannot warp, crack, shrink or burn. Takes any domestic finish. Resists heat and cold. Vermin proof. Eliminates repairs. Protects your stock. Ideal for lining garages, poultry houses, barns, grain bins and other farm buildings. Especially suitable for converting basements into extra rooms.

THOUSANDS of farmers have learned how easy and economical it is to keep farms up-to-date with Gyproc. Whenever repairs or alterations are required—whether new buildings are needed—they rely on this famous fireproof wallboard.

For fast, economical, fireproof construction there is nothing to equal Gyproc. It cannot warp, crack, shrink, bulge or burn. Its million-celled rock insulation protects stock from cold, heat and vermin. Saves time, saves labor, saves fuel—the easiest to erect and most satisfactory Wallboard you can buy.

GYPROC Fireproof Wallboard

Recipes For This Week

(By Betty Barclay)

PORTO RICAN ROAST

- 2 pounds round of beef.
- 1 small bottle stuffed olives.
- 1/2 pound salt pork.
- 1 onion.
- 2 teaspoons salt.
- 1 pint canned tomatoes.
- 1 pint boiling water.

Make small slits or holes in the meat with a sharp knife on each side of the roast. Cut the salt pork in small strips an inch long and stuff the holes alternately with these and with stuffed olives. Fry the salt pork in a heavy kettle, slice the onion, fry it in this, then remove all but onion and salt pork, brown the roast on all sides, and add one-half pint boiling water and the tomatoes. Season when half done. Simmer for three hours.

HONEY CREME

- 2 tablespoons granulated tapioca.
- 1/2 cups boiling water.
- 1 cup strained honey.
- 1 thin slice lemon, rind included.
- 1 teaspoon salt.
- 2 eggs.
- 1 cup nectar raisins.
- 2 cups cake cubes.

Pump raisins, drain and cool. Add tapioca to boiling water and add lemon salt and honey. Cook in top of double boiler until tapioca is clear. Remove from fire and beat in beaten egg yolks and raisins. Beat egg whites until stiff and add to above mixture. Place cake cubes in a buttered baking dish and pour custard over them. Bake 20 minutes in a moderate oven (350 degrees F.). Serve warm or cold.

Veterinaries use Minard's Liniment.

Italy Bans Driftbale

The Italian government has decided to abolish the driftbale balloon as a weapon of warfare or a means of commercial transportation. It was assumed the decision was due directly to the disaster that befell the driftbale Italia on its recent North Pole flight.

Manager: "But, look here, these aren't testimonials!"
Office Boy (applying for post): "No, sir, but I thought they would help. They're copies of the death certificates of my four grandpapas."

Buy Canadian Grown Bulbs

Canadian Grown Bulbs Replacing Imports From Holland

Canadian bulbs are rapidly displacing Holland grown stock, and the reason for this is apparent. British Columbia grown bulbs have been tested in every province of the Dominion on the experimental farms, and in practically every case the verdict was "good" and in some cases, "better" than imported bulbs.

These results are fully outlined in Bulletin No. 95 "Some Flowering Bulbs," which may be had on application to the Publications Branch, Department of Agriculture, Ottawa.

Tulips, narcissus, hyacinth, crocus etc., are bulbs that are planted in the fall, and whether for the garden or the house orders should be placed immediately. The bulletin referred to gives suggestions and advice on soil, fertilizers, culture, etc., and in addition, lists the best varieties by color. The results of experiments are also given. A chapter on common bulb diseases completes a very excellent bulletin, which also contains many illustrations including a colored plate of Darwin tulips.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

Northeast of Arisaig, in the country ever associated with the landing and departure of Prince Charles, lies Loch Morie. It is the deepest lake in the British Isles.

Men are more intelligent than women declares a political writer. Maybe that's why they have to wear double-breasted coats on hot days.

Foot Comfort

For aching feet use Minard's. Soothes and relieves pain.

MINARD'S "KING OF PAIN" LINIMENT

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly, and the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude medicine when you once learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

CRITICIZES MOVE TO BRING JOBLESS FROM BRITAIN

Toronto. — Immigration problems formed the chief subject of discussion at a session of the Trades and Labor Congress of Canada. While there were few aspects of the immigration policy left untouched, the highlights of the session were the unqualified denunciation of the British mine-harvester movement and an address by Hon. Peter Heenan, in which the Minister of Labor dealt forcefully with the immigration question.

Mr. Heenan charged that there was a well-thought out campaign being conducted in Great Britain to stampede the Dominion government into bringing British unemployed to Canada by the shipload. The propaganda was motivated by the desire of certain interests in the old country to solve a political problem and to encourage by persons in Canada who wanted to flood the labor market and provide ten men for every job.

As an instance of the working of the scheme, the speaker said that advertisements in England were telling the people that coal miners were wanted in Canada at high wages when as a matter of fact there was a surplus of miners in every coal field in the Dominion.

"It's a lie," declared Mr. Heenan, "to say that the British unemployed don't want to work and that they are content to subsist on handouts. They want to work and so the reports of lots of work and high wages in Canada are eagerly received."

"Canada ought to have something to say about this," he continued, "Canada ought to be past the stage where we can take up a paper and read calmly that a British magistrate has allowed a man convicted of a crime to go on suspended sentence if he migrates to Canada."

The Labor minister defended the movement of British miners to Canada for harvest labor, and pointed out that it was separate from the immigration policy generally.

"We knew we could get men in other parts of the world," he said, "but the British government offered us 25,000 men, accustomed to hard manual work, and why should we turn down our own flesh and blood?"

Gambling in Land Values

Says Prices All Over Canada Are Higher Than in England

London, Ont.—Gambling in land by all classes of Canadian citizens is one of the major reasons values are at such prices, declared A. G. Dalzell, of Toronto, speaking at a luncheon before the Town Planning Institute of Canada.

The speaker quoted prices to show that land values were very much higher all over Canada than in England or other countries for this was a wholesale speculation in properties all over the Dominion.

Must Carry Parachutes

Copenhagen.—Due to the frequency of accidents this year, all Danish military and naval aeroplanes will be equipped with Irving parachutes from Oct. 1. Military orders decree that no aviators should fly without a parachute attachment.

Infantile Paralysis in Montreal
Montreal.—Four cases of infantile paralysis were reported at the city hall in the past week and Dr. Bouché, medical officer, has issued a warning to take precautions against an epidemic.

Queen Marie May Marry
Rome.—An unconfirmed report was received here that Queen Marie of Rumania, widow of the late King Ferdinand and grandmother of King Michael, may become engaged to a wealthy American.

Entertained Prince George
Hollywood, Cal.—Prince George, who is a lieutenant in the H.M.S. Durban, now anchored at Santa Barbara, shipped into the Hollywood by automobile and was the guest of Douglas Fairbanks and Mary Pickford.

New British High Commissioner
London, Eng.—Sir William Clark, the new British high commissioner to Canada, accompanied by Lady Clark and their two daughters, are sailing for Canada on the Empress of Scotland.

Africa is inhabited with 140,000,000 black and 4,000,000 white people.

Old Age Pensions Paid

Amount in R.C. Totalling \$441,222 Up To June Last

Ottawa, Ont.—Old age pensions totalling \$441,222 had been paid up to June last, to 3,100 persons in British Columbia who had taken advantage of the scheme, according to statistics just compiled by the department of labor.

Of this amount the federal government paid one-half. British Columbia's pensioners comprised 22 per cent. of the population of that province over 70 years of age. The average monthly pension was \$17.47, the pensioners being divided as 1,871 males and 1,279 females.

Property owned by these pensioners, is valued at \$1,520,782. Of the pensioners in British Columbia, 271 were previous residents of Ontario, 257 of Alberta, 179 of Manitoba, 175 of Saskatchewan, 175 of Nova Scotia, 37 of Quebec, 18 of the Yukon, and 10 of Prince Edward Island. When any of those provinces come into the scheme a proportion paid to the pensioners in British Columbia will be charged to the respective provinces. Saskatchewan has been paying pensioners since June and expects to have 1,000 on its payrolls in September.

Manitoba and the Yukon will be paying pensions soon.

Opportunities in Peace River

Lord Lovat Finds That British Settlers Are Doing Well in North

Edmonton, Alta.—"There are wonderful opportunities for British settlers in the Peace River country," declared Lord Lovat, chairman of the British Overseas Settlement committee, on his return to Edmonton following a week's tour in Canada's far west.

"We met several of the British families who were settled at various points throughout the Peace district under the 3,000 family scheme, and without exception, all these people are doing well, and are more than satisfied with their venture."

"Many of these men were farmers, and few of them had any previous farming experience, but they are making good, and their experience shows clearly that given the will to succeed, lack of experience is no bar to success."

Lord Lovat found that over 3,000 homesteaders and settlers have gone into the Peace district this year, and everywhere there was a spirit of optimism for the future.

Submarine Rescue Device

U.S. Navy Tests New Apparatus For Saving Ship Crews

Aboard Submarine Salvage Faicon, Off Solomon Islands, M.D.—Successful deep sea tests with the "lung," the navy's new breathing device, intended to enable men trapped in sunken submarines to reach the surface safely, have been made and it is believed that the device will be used in naval subs. will be equipped with them.

Three naval divers descended in a diving bell to a depth of 155 feet and rose quickly, breathing high oxygen through a mouthpiece from a rubber bag resting against their chests. They reported no discomfort. It is said to be the most perfect device ever invented for the purpose.

Will Publish Naval Accord

No Secret Clauses in Agreement Says Brand

Geneva.—The much-discussed Franco-British naval accord is to be made public by France through the League of Nations committee of disarmament.

Foreign Minister Briand of France, announced this decision after a speech before the League Assembly in defense of the agreement. He said the understanding would be introduced merely in passing, as an example of efforts being made to hasten disarmament.

In his speech he asserted that there were no secret clauses in the agreement.

Natives Should Avoid War

Geneva.—An appeal that native races should forever be kept outside the range of modern warfare, was made by Hon. J. S. Smith, South Africa's high commissioner in London and representative of the League of Nations, in addressing the League assembly.

Ex-Empress Dignitary

Copenhagen, Denmark.—The ex-empress Dagmar, the sister of Alexander III, of Russia, and sister of Alexandra, the late Queen Mother of England, is seriously ill here.

New 'Plane Tested

Demonstration At Los Angeles Proves Automatic Landing Feasible

Los Angeles.—A tiny plane constructed on a new vertical principle, made successful test flights here, demonstrating, observers said, that an aircraft can make an automatic landing.

Merle F. Kelley, who piloted the plane, was said to have taken the craft from the ground on 315 seconds, soared sharply upward, cruised at 100 miles an hour and then landed with both hands aloft.

The new principle was described by A. A. Merrill, inventor, as tilting the wings, which are a single unit, in relation to the speed device in the cockpit.

The plane has a short fuselage and very little tail. In its construction the inventor was assisted by Dr. Clark Millikan, son of Dr. R. A. Millikan; Dr. Harry Bateman and Dr. A. L. Klein, all of the California Institute of Technology.

U.S. Building De Luxe 'Planes

Passengers Will Be Assured Of Every Convenience For Comfort

Los Angeles, Calif.—Four aeroplanes, capable of carrying 20 passengers, equipped with luxurious private apartments and sleeping berths, are being built by the Keystone Aircraft Corporation at Bristol, Penn., Edgar Scott, president of the firm has announced.

The new monoplanes, the largest ever built in America, are of all metal design and tri-motored. They can speed at 155 miles per hour. Provisions for hot and cold running water are made in the sleeping compartment and a radio will be installed.

MOST OF BRITISH HARVESTERS ARE MAKING GOOD

Winnipeg.—"We are just finding out the sheekers, that's all, and I am quite confident that the majority of the men are making good," declared Hon. Robert Forke, Minister of Immigration, following a conference regarding British harvesters, which he had with Thomas Kelley.

About six hundred have been sent back to England, Mr. Forke continued, and possibly two hundred more will go back as having failed to make good; but that left something like eight thousand British harvesters in the western fields, who were not being heard from because they were too busy working.

He had talked with the physician who had examined 200 of the men sent on their way home and only one out of the lot had been really physically unfit, and he was subject to epileptic fits. The others could have worked had they not lacked the will.

"There is plenty of work," said Mr. Forke, mentioning that 1,500 men had been wanted at Regina this morning. He had himself come back all the way from Ottawa to see that the five British harvesters on his own farm got a good start. He thought the farmers who cut the wages of British harvesters because of inexperience were a little shabby," at the same time he agreed that men new to the work were bound to be inferior to experienced hands.

The minister warmly praised the work of Mr. Kelley in handling affairs at the immigration sheds under most trying circumstances. "No one could have done it better," he said. All physically unfit British harvesters will be returned to the Old Country, Mr. Forke asserted, regardless of their desire about remaining here.

A non-political commission for the supervising of British immigration is not held to be a probability by the Minister of Immigration.

"I do not foresee any definite changes which would regulate the immigration question to a non-political basis," he said. "It is likely that it will continue to be in the hands of whatever government happens to be in power."

Mentioned For Important Post

Q. W. Stephens, of Montreal, who has been mentioned as a possible selection for the post of Canadian minister to Tokio.

To Aid Non-Agrarians

Reduced Fares Arranged For Families Of Settlers Not Employed

Ottawa. Details of the extension of the assisted passage scheme to the wives and children of British settlers not employed on the land in Canada have been announced at the department of immigration. Assisted passages were formerly only given families of those who settled on the land.

A reduced steamship fare of \$15.25 has been arranged through the co-operation of the British and Canadian Governments for the wives and children of those who were satisfactorily settled in Canada on June 6, of this year. Children under 17 years of age will be free. The Canadian Colonist railway fare to the destination is the only added charge. The arrangement has been made in order to implement a recommendation committee made on June 5 last.

In order to avail himself of the reduced rates for his family the settler need only establish that he is successfully established in Canada and has a reasonable prospect of being able to support them.

To Reduce Traffic Accidents

Encourage Garages To Use Headlight Testing Appliances

Ottawa.—Following up the recent conference called to consider ways and means of reducing traffic accidents, the Saskatchewan Government is now encouraging garages and filling stations to equip with a testing device for headlights, to allow a driver to quickly ascertain if his lights conform with provincial law.

The Saskatchewan law is that the beam must not be thrown higher than 42 inches at a distance of 75 feet. If the equipment installed by the service stations were found to come up to government standard, the government would then consider the plan of allowing the proprietors to issue certificates to drivers.

Refuse Trade With Russia

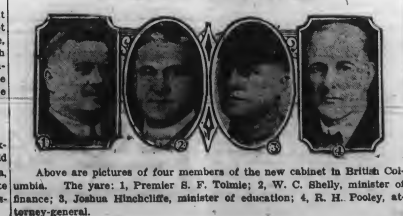

Labor Congress Rejects Resolution To Resume Relations

Toronto, Ont.—Following a heated debate the Trades and Labor Congress of Canada rejected a resolution favoring the resumption of trade relations with Russia. Sponsors of the resolution contended that Russia was the only country in the world where the working classes were in control, and that there was a ready market in Russia for products of Canadian industry.

Australia Buys B.C. Apples

Winnipeg.—Commencing with the first of this month the importation of Wealthy apples from British Columbia to South Africa was resumed. For some time this fruit trade was neglected but is now being built up again with the result that one Canadian Pacific Railway carload of the Wealthy variety was shipped from Salmon Arm.

NEW CABINET IN BRITISH COLUMBIA

Above are pictures of four members of the new cabinet in British Columbia. The year: 1. Premier S. F. Timmins; 2. W. C. Shelly, minister of finance; 3. Joshua Hinchcliffe, minister of education; 4. R. H. Pooley, attorney-general.

Ramsay MacDonald Sails

Says He Is Sorry To Leave Canada. But Will Return

Quebec.—"I have left my heart behind me, and am sorry that I did not miss the ship, in order that I might see more of Canada," declared Right Hon. Ramsay MacDonald, former premier of Great Britain, as he mounted the gangway of the Empress of Australia en route for Southampton.

"I am going home full of most pleasant recollections of Canada. You have a wonderful country," he added, "and I hope to be back again next year. If it were left to me I would be back again next month."

"Just as soon as ever I get back to England, I will plunge right into the political fight. The annual meeting of the Labor Party at Birmingham takes place first, and then I shall go to the continent for two weeks, but after that I shall get right into the thick of it, and prepare for the general elections, which will take place next year. The results will be very good for us."

Alberta Progressing

A friend, writing to another who had recently arrived in Alberta, stated he was glad to welcome him to the first province of the Dominion—alphabetically speaking. With the development that is taking place, new projects under consideration, the Canadian Pacific making a \$22,000,000 offer for the provincial railroads leading into the Peace River country, enlargements of the Palliser hotel and the station in Calgary, not to mention many other activities, such as increased activity in the mining and oil fields, it would appear that Alberta is destined to become the most prosperous province west of the Great Lakes.

Its diversity of natural resources, which are only in the early stages of development, its wealth of natural beauty which is an invaluable asset from the tourist point of view, combine to make it especially attractive from a business standpoint. The Journal shares with many others the faith that with the remarkable progress being made this area of the Crows Nest Pass will undoubtedly share in the benefits that may accrue. It encourages those who are here to do their part in improving local conditions, for in order to take advantage of the generally improved conditions of the past year or two, steady effort must be made from within ourselves. It is this persistency of effort combined with a broad outlook on life in general which helps to build towns into cities.

Help the Army

The Salvation Army is fully justified in making its appeal to all classes of the people for financial support, and its Harvest Festival drive in the Pass will undoubtedly be accorded a generous measure of support. The unselfish nature of its work for humanity in the lower walks of life, for the unfortunate and the outcast, and moreover the self-sacrifice of the officers engaged in this world-wide work of service in its truest sense, sets an example which is bound to make its appeal to those who will just give a thought to what the Army's work means. In the face of discouragement at times, corps officers in charge of widely scattered posts keep the Army flag flying, and though in our own town one sometimes ponders when the officers are holding their open-air services, with very few listening, if it is worth the effort, yet the fact remains that by their example of steadfastness to a cause which has stood the test of time and has spread into all lands, they are carrying on the work so nobly started by the old general, William Booth, whose life work is an inspiration. A little help from every person who may be approached will give happiness to the giver, and at the same time reward the local officers, Capt. Donnelly and Lieut. Meakings, in their efforts to keep the Army flag flying in the Pass towns; also it will assist in carrying on the world-wide social work of this vast organization.

Last week's issue of the Pincher Creek Echo was a special, commemorating the jubilee of the inauguration of the Northwest Mounted Police. Very interesting stories of the establishment of the police post and other incidents of early life in Pincher Creek furnish a good record of those who laid the foundations of that prosperous town and district, and serve to remind people in this age when speed appears to be dwarfing the finer things of life, that the early pioneers, though perhaps a little slower in their methods than people of the present age, had a fine regard for each other and always had time to extend the hand of sincere friendship and help.

The changing colors of the leaves on the foliage on the mountain slopes at this season presents a most pleasing sight in every direction, and with the keen morning air and bright sunlight it makes one feel light-hearted and gay and glad to be living amid such surroundings. The mountains never fail to hold intense interest for those who love the outdoors, and though it is said that familiarity breeds contempt, yet there is an attraction and charm in the mountains which time cannot deaden.

Good-will is the most valuable asset in business. The local retailer who develops this, combined with constant effort to serve the public as efficiently and economically as possible, has a great advantage over the mail order competitors. Personal contacts are an important feature in local retail business.

A methodical system of your day's duties consistently followed will enable you to get through the day with the expenditure of much less energy than if you just muddle through. It applies to household duties as well as the office or the workshop. Try it!

"Both sides waiting for word from Coolidge," states a daily news despatch. What will happen after he has spoken is hard to conjecture.

Is It Worth \$73.20 a Year To Protect Your Dependents?

Maximum insurance protection at minimum cost—that is what every man wants and what The Northern C. P. Policy is designed to give.

The C. P. Policy is the cheapest form of permanent life insurance you can take. The premiums are extremely small—a \$5,000 policy costing a man, age 30, only \$73.20 a year.

Premium Rates Per \$1,000 of Insurance	Age		
	25		\$12.94
	30		14.64
	35		16.76
	40		19.41
	45		22.70

I will gladly call and explain how the policy will work out to your lifelong advantage.

HERBERT SNOWDON,
District Representative.

Palace Theatre Has Some Exceptional Bookings

"Street Angel," Fox Picture featuring Janet Gaynor and Charles Farrell, ran for eleven weeks at the Globe theatre on Broadway, New York. Critics and public alike proclaimed it one of the greatest screen achievements in years. It will be shown at the Palace on Friday and Saturday, Sept. 21-22.

Watch for the date of "The Rose of Picardy," one of Lasky-Paramount big features of the year, coming to the Palace soon. Douglas Fairbanks in *The Gaucho*, billed to appear at the Palace Oct. 5, will be welcomed by theatre goers. It was announced for some weeks ago, but was held up. It will be eagerly anticipated here.

Mrs. Ferguson Died on Tuesday

The death occurred on Tuesday afternoon of Mrs. J. Ferguson, one of the old-time residents, residing a few miles west of town in the vicinity of Crow's Nest Lake. She is survived by her husband and daughter, Mrs. John Kerr, the latter operating a refreshment parlor in town.

Deceased had been in indifferent health for a considerable time. She came from Scotland a number of years ago, and with her husband settled at Coleman, who prior to 1912 was employed in the mine of the International Coal Co. Deceased was 49 years of age.

George Pattinson has experienced rather a bad time this week through sickness, and has been confined to his bed for several days.

CLASSIFIED ADVTs.

Advertisements under this heading, such as For Sale, To Rent, Lost, Found, etc., are charged at the rate of 10c per line, counting five words to the line, with a minimum charge of 35c.

Personal and Local

Mrs. J. Haining of Turner Valley is visiting Mrs. T. Flynn.

Mr. and Mrs. A. Easton and family left on Wednesday for Granum to reside there.

Mrs. Barnes has returned from three months visit with friends at Belmont, Man.

The Salvation Army will hold their Harvest Festival thanksgiving services on Sunday, Sept. 23.

G. R. Powell attended the Optometric clinic held in Calgary this week.

Mrs. W. J. Burns, who returned last week from a three months visit to her former home in Quebec province, has been critically ill since her return, from heart trouble.

Mary Jenkins left on Saturday morning's local for Calgary, after spending two weeks holidays visiting friends and staying with her parents, Mr. and Mrs. Robert Jenkins, of West Coleman.

Geo. Short, of the McGillivray office staff, has left for the Mercoal collieries, and it is probable that his family will leave later. The Canadian Legion held a smoker in his honor on Tuesday and made a presentation as a token of good will.

An enjoyable whilst drive was held at the parish hall under the direction of the Junior W.A. of St. Alban's church on Monday evening, the following being the prize-winners: Mrs. Hancock, ladies' first; Mrs. Muir, second; Mrs. Emmerson, consolation. Gentlemen—Mr. Fisher, first; Mrs. W. Tate, second; Mrs. Halliwell, consolation.

Mr. and Mrs. F. Celli and son were visiting Mrs. Gentile, after visiting their daughter in Vancouver. They returned from the coast city via the Pacific highway to Portland, then up the Columbia highway to Spokane and Coleman. They returned to their home at Creston on Wednesday. Mr. Celli owns the building in which the Palm Cafe is located, and left here in 1921 to take up fruit farming at Creston.

Harry Gardner, of Edmonton, who for the past three summers has worked for the International mine, will leave on Friday for his home, and will resume his course in mining engineering at the university. He has been a good acquisition to the baseball team, besides taking an active part in the tennis club. His cherished ambition to climb Crow's Nest Mountain, though planned for several times, was always doomed to disappointment, but he states he will look forward to it for next year.

Big Game Hunter

Andrew Dow is a versatile man. In addition to his daily duties in the McGillivray mine, he very efficiently operates the Palace theatre to the satisfaction of his patrons. By way of diversion he is a big game hunter, and last week with several companions he went several miles back into the mountains with his faithful saddle mare "Queenie" and the party were successful in bringing down some goats. Later he intends trying his skill in tracking down some of the famous big-horn sheep, the heads of which are highly prized among hunters and trophy collectors.

Place Your Orders Now!

The Journal has a line of Christmas Cards which will fill a long felt want. A cut-out allows snapshots to be inserted and makes a very interesting form of greeting which your friends or relatives will appreciate. A phone message to 209 will bring a sample book to your home or call at the office.

If pipe ashes burn the palm of your hand they are hot enough to set fire to the bush. Watch out. It doesn't take much to start a million-dollar fire some times and places. Once burnt over a forest area may be useless for generations.

SPECTACULAR SUCCESS Rewarding New Refinements in a "Successful Six"

ALWAYS a great car... always an outstanding value... always a "Successful Six"... Pontiac Six now earns its right to even more spectacular success.

Sweeping new refinements in the sturdy Pontiac Six-cylinder engine... for example, New Marvel carburetor, improved manifold... add new and greater smoothness to Pontiac performance.

New, smarter, smaller wheels, with larger tires, further enhance the sparkling beauty of Pontiac's "Body by Fisher".

You can drive Pontiac Six as far and as fast as you wish with perfect peace of mind and security. All of Pontiac's famous stamina is there... and all the quality features which won Pontiac its amazing success in the past... the famous G-M-R Cylinder-head; the foot-controlled headlights; the Lovejoy Hydraulic Shock-Absorbers, etc.

Spectacular success could not help but reward this most recent evidence of Pontiac's progressive policy.

Come in and learn why Pontiac is winning increased popularity throughout Canada. P-11-2-200 Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.

Local News

Hilda Houghton has been admitted to hospital to receive treatment.

Mrs. D. G. Stafford of Victoria, and Mrs. James Dunlop of Regina, are visiting Mrs. C. F. Dunlop and Mr. and Mrs. Hugh Dunlop.

Mrs. A. F. Cady and children arrived this week, and will take up residence here. Mr. Cady is travelling representative for the McGillivray Coal & Coke Co. Ltd.

Mrs. Kay, daughter of Mr. and Mrs. Thos. Johnson, is down from Arrow Lakes, B.C., to visit her parents.

Granville Greenhalgh is spending a few weeks visiting at Arrow Lakes, B.C.

Attention is called to the special advertisement of H. Snowdon on insurance in this issue. Life insurance is recognized as a necessity by every man who has dependents, and its benefits should be taken advantage of.

The picture entitled "Sorrell & Son," shown at the Palace last Friday and Saturday, was without question one of the best of the year, and was thoroughly enjoyed by a large audience each night.

Miss Theresa Siegel, play-reader and entertainer, who gave a very pleasing entertainment here last year in the United Church, is to appear here on Tuesday next, Sept. 25, at 8 p.m. The pleasant recollections of her previous appearance here will prompt many to again hear her.

As an example of up-to-date methods in advertising, the morning after George Michel was proclaimed the winner of the Wigley marathon swimming race at the Toronto exhibition, display advertisements appeared in the daily papers stating that he trained on Ovaline.

Journal Classified Ads can be used to good advantage. You may want to buy something that somebody has to sell. It will cost you 35c to advertise it (minimum charge for three lines). Heaters, furniture and household goods can be advertised at very little expense.

New iron pipe is to be laid from the tennis courts to the dam, to replace the old pipe of the Coleman Light and Water Co. There has been a heavy loss from leaks in the old pipe, besides frequent shut-downs in the service. This improvement in the service will be appreciated.

Advertising is the first step in selling, and should be used regularly and consistently, stated W. E. Lord, retailer of Red Deer, Alta., who recently sold his departmental store to the Eaton Co. Ltd. Mr. Lord always used a page in each of the Red Deer papers and considered it more valuable than direct-by-mail advertising and less expensive.

Mr. and Mrs. Purvis returned on Saturday from several weeks' visit in the western States and British Columbia, having motored the entire distance. They were delighted with the trip, and the wheat fields in the State of Washington were indeed a splendid sight, Mr. Purvis stated. Incidentally he gained ten pounds while away, which is an indication of having enjoyed himself.

Mr. A. C. Elmerfelt, president of the International Coal & Coke Co. Ltd., was the guest of Mr. and Mrs. O. E. S. Whiteside last Friday and Saturday, leaving for Victoria on the evening train. In the course of the interview Mr. Elmerfelt stated he was pleased with the signs of progress here, and recalled some of the early history of the town when it was just a mining camp.

It is necessary that subscriptions be paid in advance if The Journal is to be continued to your address. During the next few weeks all who are in arrears will again be notified, and delinquent subscribers are urged to give the matter their prompt attention. The Journal does not wish to cut off subscribers who intend to clean up arrears, but they cannot be carried for an unreasonable length of time.

MARCELLING--By Miss Florence Cox, graduate of Jean Carroll School of Beauty Culture, Calgary. For appointments call Grand Union Hotel.

Coleman is Flourishing

(continued from page 1)

will receive as the years pass on, this wealthy industrial area of the southwestern portion of Alberta will play a very important part in the business life of the province. The payroll of the four towns of Coleman, Blairmore, Hillcrest and Bellevue represents hundreds of thousands of dollars of purchasing power each year, and with this means there is always a good volume of ready cash in circulation.

Undoubtedly there is cause for optimism on the potentialities of this area. The outlook for the future, with the pleasant natural surroundings, working conditions and so on, makes up a combination of circumstances tending to ensure happy, contented workers who are an asset to the province. These have such faith in the town and district that large numbers build their homes and make provision for years to come, looking upon Alberta as home in the real sense of the word, and not looking at distant fields as a place to which to fly.

Editorial Note:--The foregoing appeared in a recent issue of the Calgary Albertan. It evidently aroused the ire of the editor of the Blairmore Enterprise, for in his last week's issue he states:

"An anonymous article appearing in Monday's issue of the Albertan gives Coleman a population of 3500. Where do they get that stuff? Surely it's impossible to boast without such gross exaggeration."

As an answer to this comment, The Journal assures The Enterprise that there is no exaggeration whatever. On the taxpayers roll for the Coleman School District there are enrolled 738 taxpayers. As it is a conservative estimate to state that each taxpayer represents an average family of five people, the population on that basis would be ten short of 3700 people in Coleman and the East Coleman and Craftonville subdivisions. In the incorporated area there were 2200 people according to the last census, while East Coleman, Graftonville and Cardonville would show a population of approximately 1500 additional. The above figures are given as the result of information given to The Journal by Mr. James Ford, secretary-treasurer of the town of Coleman, who is not given to making extravagant statements.

HOSPITAL REPORT

From Aug. 1 to Aug. 31:
Patients in hospital, Aug. 1 40
Admitted during August 16
Discharged during August 47
Total patients treated 56
Remaining in hospital 9
Total number Hospital days 262
Admitted for major operations since Sept. 1: Mrs. Rose, Mrs. O. Smith, Miss Margaret Blythe, Master Richard Fisher.

For medical treatment: Mrs. Kovash, Burmish Mrs. Wm. Kuzky, Coleman, Mrs. Theobald.
Discharged: Al. Lonsbury, Mr. DeCaco, A. J. Knight, S. Howarth, Olive Dadds.

Born: To Mr. and Mrs. Stanley Tarabuti, Sept. 14th, a son.

ST. ALBAN'S CHURCH

The W. A. will hold a tea and pantry sale in the parish hall from 3 to 5 p.m. on Saturday, Sept. 23.
The Junior W. A. meets on Friday at 4 p.m. Choir practice at 7:30 p.m., Sept. 21st.
Sunday, Sept. 23, evensong at 7 p.m.
The violin selections given at Sunday evening's service by Mr. Cartwright, of Calgary, were greatly appreciated, organ accompaniments being played by Mr. Machin.

TRUE FISH STORIES

Master Luke Lindoe spent his summer holidays at Stewart Lake, B. C., where there are trout which make one envious to hear of them. He landed a 15-lb. rainbow trout, and a 12-lb. lake trout, besides others of large size. To show these are not just stories, he brought back with him photographs of the leviathans of the deep.

Whist Drive and Dance

Victoria Rebekah Lodge announces a whist drive and dance for **SAT., SEPTEMBER 22** in the O. O. F. hall at 8 p.m. Everybody will be welcomed.
